

A photograph of Hughes Hall, University of Cambridge, set against a dramatic sky filled with large, white and grey clouds. The building is a long, red-brick structure with multiple gables and dormer windows. In the foreground, there is a green lawn and some bare trees. The title text is overlaid on the upper portion of the image.

Hughes Hall Accommodation

A Look Book

Hughes Hall
University of Cambridge

Introduction

This *Look Book* was created to help incoming and continuing students alike in their accommodation application process. It provides students with a better idea of what their accommodation space would roughly look like, from their bedrooms and bathrooms, to their cooking and dining facilities. The *Look Book* is intended as a temporary measure while the College migrates to a new software that would provide a better accommodation process experience to Hughes Hall students. Please note that the *Look Book* is not a replacement to the information and materials that the College has already prepared for Hughes Hall students seeking to obtain information regarding accommodation at College (www.hughes.cam.ac.uk/life-at-hughes/accommodation). Instead, it acts as a supplement thereto, providing additional information through pictures of the students' new home. It goes without saying that the *Look Book* only provides samples of the types of College accommodation available and does not guarantee that the room which will be allocated to students will be exactly as pictured. Please also note that some of the furnishings in the pictures are the students' own. Please check the relevant College webpage for further information on College accommodation and a list of included furnishings. And as usual, students who are looking to stay at a private accommodation may consult the MCR's relevant webpage (<https://mcr.hughes.cam.ac.uk/students-living-outside-of-college-accommodation>).

This project will not have materialised without the suggestion of Yu Ri Im, MCR Vice President, the support of Hughes Hall's MCR Committee 2018–19, and the assistance provided by the College's Accommodation Team. I am grateful to Jane Fricker, Accommodation Manager, for offering access to various College properties. Special thanks to Marta Grzelak, Housekeeping Supervisor, for taking the time to accompany me to such properties (on-site and off-site), and most especially for putting the extra effort in bringing props and organising our meeting with Girton College's Accommodation Manager to discuss some of the facilities at Swirles Court. I would also like to thank Amalie Høgfeldt and Andrea Di Antonio for allowing me to photograph their rooms for this project. I am grateful, as ever, to Daniel Antón García, MCR President, for his all-out support on accommodation-related endeavours, and to Kathryn Smart, the College's Head of Domestic Operations, for always keeping the communication channels open between College and the Student Body, through the MCR Committee.

I hope that fellow Hughesians will appreciate the time and the effort that have been put into this work, and will find it useful as they undertake to submit their next accommodation application to College. All of the photos in this *Look Book* are my own. All rights are reserved.
